Personal Details

Date of Birth 28th January 1983

Marital Status Single

Driving Licence Full, clean

Education

2001 - 06/2004 **Imperial College, London**

I have attained a BSc honours degree in Mathematics and Computing.

1994 - 2001 **Solihull School**

4 A-levels, 1 AS-Level: Mathematics(A), Further Mathematics(A), Advanced Further Mathematics AS(A), Physics(A), Economics(B)

10 GCSEs: Mathematics(A), Biology(A*), Chemistry(A*), Physics(A), Information Systems(A), English Language(A), English Literature(A), History(A), Geography(A), French(B)

Computer Skills

Languages Java, PHP, Python, Haskell, Borland Delphi (Object Pascal), MySQL

Software Packages Microsoft Office, Abiword, Borland Delphi, Adobe Photoshop, Adobe Imageready

Other Latex, HTML, Linux

I can write dynamic database driven websites. I have built a website for the university walking club, <http://www.fellwanderers.com>. The website was primarily designed using Adobe Photoshop and Imageready.

Work Experience

03/2004 - **Splendid.co.uk Ltd.
Systems Administrator**

Splendid provide personnel to the service industry for events ranging from large corporate dinners to birthday parties. They have a bespoke computing solution which runs on a Solaris server. My role includes maintaining this server and other external services. I work on a part-time/on-demand basis for both general maintenance and immediate problem resolution.

2002 - 03/2004 **Sevenoaks Sound and Vision (Wolverhampton)
Part-time Sales Consultant**

Employed by the Wolverhampton franchise. The store sells high-end hifi and audio visual equipment. This often involves demonstrating the equipment to customers who have high expectations. It is important to be able to set up the equipment accurately and professionally, which helps to fulfil their

expectations of both the products and the service provided by the store. Customers in this market expect high levels of service and as a result I will deliver and install equipment. This requires meticulous preparation as the absence of a required lead or piece of equipment will impact on the level of service. It is essential to order stock when required and to liaise with customers, manufacturers and other stores. I have created several spreadsheets to help track financial transactions and to record current stock levels. and I plan, time permitting, to build a bespoke computing solution to track customers, invoices and stock.

Summer 2002

**KPMG LLP, Pensions Department
Summer Placement**

I spent eight weeks working during the summer in the KPMG Pensions department. The department dealt with financial queries that required actuarial expertise. My work involved calculating retirement and transfer value quotations, initial actuarial training and dealing with correspondence.

1999 - 2002

**Sonex Communications Plc.
Part-time Sales Assistant**

Primarily involved in communicating with the public and selling Sony electrical equipment. Carefully structured questions were essential in helping the customer decide which product would suit them best. Experience lead to the ability to make commercial decisions based on margin information.

Interests

Mountain Walking

I was the Secretary of the university walking club (2003 - 2004) and partake in a majority of their trips. As Secretary of the club, I was responsible to find and book accommodation for the trips. I was also in charge of social events that are held at least twice each term. We mainly visit national parks in the UK and in the summer we travel to Europe. I often drive the minibuses on the longer distance journeys.

Canal Restoration

I am a member of the Waterway Recovery Group, which is a voluntary organisation that helps to restore canals to their former working condition. We also do preventative maintenance to existing canals as required. Work parties usually take place every three weeks.
