Software Freedom Day

Saturday September 18th 2010

@ All Saints Church, High Street, Hereford HR4 9AA

10 am to 3 pm

- Celebrate** ● software freedom and the people behind it
- Create** ● more equal access to opportunities through the use of participatory technologies
- Share** ● understanding of software freedom, and encourage adoption of free and open software

Open Source Software is free from restriction, you can share and copy it, you can shape and change it. Open Source Software is developed by the global OS community - it is quality software with development driven by those who use it and is developed to suit their needs.

OR you can just use it - free from hassles and costs.

Drop-in to the ISFD event at All Saints and experience how easy Open Source Software is to install and use - we will be running demonstrations of high quality cross platform software for Windows, Mac and Linux.

Our Drop-in Day is suitable for Business, Education & Home Users and our friendly volunteer team from the Herefordshire LUG who include enthusiasts, business users and IT specialists will be there to give informal help and advice.

Take home a whole new world of
FREE software
