Reduce **Costs**. Increase your **Options**.
Take **Control**.
Build your own business **Success** in the
face of global adversity.

Join us in Leeds at the home of OS4B at 8:30am on 31st March for a business breakfast where we discuss how to "Innovate in a Downturn" and gain competitive advantage through Open Source technologies which offer "Alternative IT Solutions for your business needs".

This unique 'Sandwich Breakfast' is free and will feature fantastic speakers from Harvey Nash, Global IT Professional Services and Luminary, IT Consultants. Book now to register for this event and find out how Open Source can save you money.

Open Source for Business (OS4B), a joint venture between nti Leeds and Yorkshire Forward, is designed to help regional businesses make the most of open source technologies. At the heart of OS4B is a centre of excellence for open source, including part-funded training (at least 60%) on open source products to help your business thrive.
